

At L'Azure, in collaboration with Altimir Laboratories and under the supervision of authorised independent auditors, have implemented a series of protocols for the prevention of Covid19 spread. Our aim is to give you the best care-free holidays!

The cleanliness and disinfection procedures have been enhanced in rooms and all public areas.

Social distancing in all public areas is controlled for customers safety.

Information points for Covid-19 prevention have been highly implemented.

All our staff is trained in hygiene and Covid19 prevention measures. The staff is equipped with individual protection equipment.

All cleaning and disinfection products used are approved by the Department of Health.

The corporal temperature of our staff and suppliers is under a strict control.

The capacity of public areas have been decreased, and the table separation in bars and restaurants have been increased.

In all public areas, bars and restaurants, there is available hand disinfectant gel.

Entertainment activities are due in open spaces and the those participants are limited.

The swimming pools sun loungers have increased the separation between them, and a high frequency disinfection have been set.

Air filtering and purifiers have been installed for a clean air.

Textiles, fabrics and clothes are under a complete washing and disinfecting procedures in our laundry.

The food is served plated in individual portions. Food from the self-service buffet is served by a waiter.

Our food catering is completely supervised, protective and hygienic procedures have been adopted. The bar and restaurant menus are digitized for a touch free use.

Restaurant operating hours will be dynamically extended to ensure a correct capacity and social distancing between clients.
